

# Works notification

## Upcoming works – February

**We're removing four dangerous and congested level crossings at Coburns, Exford and Ferris roads in Melton, and Hopkins Road in Truganina to make Melton boom gate free in 2026. We're also building a new modern and accessible Melton Station.**

We're removing the level crossing at Ferris Road by building a new road bridge over the rail line. Thank you for your patience as we deliver this important project.

### What we're doing

In February, works will include:

- utility investigation works along Ferris Road, Coach Street and Hollingsworth Drive
- constructing the new Ferris Road bridge deck, approach pavements and installing retaining walls
- Ferris Road pavement works and road barrier realignment.

### Ferris Road closure in February

To safely complete the pavement works and road barrier realignment along Ferris Road, there will be road disruptions in your area.

| Disruption   | Description   |
|--|---|
| <br><b>Ferris Road closed</b> | <p><b>Ferris Road will be closed from 7pm Friday 27 February to 7am Monday 2 March</b> between the roundabout at Abey Road and Shogaki Drive and the intersection at Hollingsworth Drive and Coach Street.</p> <p>Detours will be in place. See map overleaf.</p> <p>Allow extra time for travel.</p> |

### What to expect

- Until late 2026**, there will be a long-term pedestrian closure along Ferris Road and surrounding areas with detours in place.
- Traffic management, including intermittent stops, road closure and reduced speed limits will be in place at times. Delays may be experienced.
- Increase in construction vehicles, works crews, large machinery and deliveries.
- You may experience an increase in construction noise, light and vibration.
- Unforeseen weather conditions may affect our progress and require additional works outside of normal hours. We'll contact impacted stakeholders prior to any works commencing.
