

Works notification

24/7 works and road closure in July

We've removed the level crossing at Hopkins Road in Truganina and the boom gates at Ferris Road will be gone for good on Wednesday 15 July. Two more sets of boom gates at Coburns and Exford roads will be gone this year, making Melton level crossing free. We're also building a new modern and accessible Melton Station that will open this year.

What we're doing

We're working 24 hours a day in and around the rail corridor between Coburns and Ferris roads from **9pm, Sunday 19 July to 4am, Monday 27 July** to:

- continue construction of the new Melton Station and rail bridges
- undertake pavement testing in the station car parks
- conduct road testing on Coburns Road at the level crossing
- replace an underground drainage pipe on Staughton Street

What to expect

- Works taking place **24 hours a day**, with an increase in noise, lighting, vibration and construction vehicles moving around the area.
- Nightly closure of a section of Staughton Street between Rees Road and Cooper Street from **10pm to 5am, Sunday 19 July to Monday 27 July**
- Nightly closures of Coburns Road from **10pm to 6am, Thursday 23 July and Friday 24 July**
- Staughton Street will remain open during nighttime closures of Coburns Road.
- Overnight staged Melton Station car park closures
- Dust minimised with watercarts

Traffic management and signage will be in place to help you move around the area. Access to homes and businesses, including driveway access on Staughton Street, will be maintained.

We'll make every effort to complete works on schedule; however, dates and times are subject to change.

Changes to the way you travel

During the nightly closures of Coburns Road detours will be in place via Rees Road, Wilson Road and Exford Road. Please see map over the page.

While we complete these works, there will be service changes on the Ballarat, Ararat and Maryborough lines with coaches and buses replacing trains from **10pm, Wednesday 22 July to last service, Sunday 26 July**. Please allow extra travel time.
